

AQUAprep Multi-purpose Undercoat

Description

AQUAprep Multi-purpose Undercoat is an ultra premium, primer, sealer, undercoat with superior hiding power. Suitable for a variety of surfaces - both inside and out.

Features and Benefits

- Easy application
- Excellent flow and application properties
- Extremely versatile
- Low VOC
- Minimal sanding required
- Multi-purpose primer, sealer, undercoat
- Provides an excellent surface for topcoats
- Superior hiding power

Limitations:

- Do not apply when the surface temperature is below 10°C or above 35°C.

Technical Data:

Resin Type:	100% Acrylic Emulsion
Colour:	White
Gloss Level:	n/a
Dry-Time:	Touch Dry: 30 mins Re-Coat: 2 hours Low temperatures, higher film thickness and/or high humidity will require longer drying times.
Theoretical Coverage:	10 - 12 m ² per litre
No. of coats:	One
Packaging sizes:	4 and 10 litre
Thinner:	Water

Method of Application

Brush, Roller or Spray. Please use the method best suited to your requirement and skill.

Surface Preparation

Remove all dust, dirt, grease or any other form of contaminants from the surface. For exterior areas, if mould or fungus is present on the surface, wash it with APCO BIOwash - follow the instructions carefully. Fill cracks and imperfections with a suitable filler and spot prime. Sand all previously painted surfaces with 180 grit sandpaper to reduce the previous film to a flat finish and to remove all loose and flaking paint.

Application

Stir the contents thoroughly before and during use.

Apply one liberal coat, at the recommended coverage rate, to a properly prepared surface. Allow at least 2 hours dry time before sanding.

Lightly sand using 220 grit sandpaper to achieve a smooth, even finish. Dust off. Follow with two topcoats.

For Best Results:

1. Apply liberal coats by brush, roller or spray un-thinned, maintaining a wet edge.
2. If the topcoat to be used is a dark colour, tinting AQUAprep to a light shade similar to the topcoat colour is recommended.
3. Use good quality brushes and rollers.

Health and Safety: (Please refer to Material Safety Data Sheet before using)
